

REMARKS

In an Office Action dated January 13, 2005, the Examiner rejected claims 1-30, 50-52, and 56-59. Claims 31-49 and 53-55 were withdrawn by applicant. As amended, claim 52 remains pending in the application. Claims 60-93 have been added. Claims 1-30, 50-52 and 56-59 have been canceled.

Claim 52 was indicated to have allowable subject matter, except it was rejected under 35 U.S.C. 112 for indefiniteness of the term "too long" and for lacking antecedent basis for the terms "an electronic message" and "an attachment." Claim 52 has been rewritten in independent form and the term "too long" has been replaced with the term "unable," which is discussed in the specification on page 11, line 13. The terms "an electronic message" and "an attachment" have been corrected to reflect proper antecedent basis.

New claims 60-69 depend from claim 53 and thus should be allowable because they depend from a claim that was indicated to have allowable subject matter.

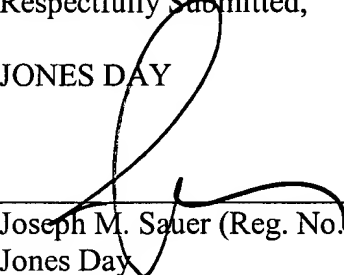

New claims 70-82 all include the following limitation: "notifies a wireless device user when one or more of said electronic messages is received that includes one or more of said attachments that are unable to be transmitted to one of the wireless devices, and (2) provides the wireless device user with an option to transmit one or more attachments to the resource associated with the one unique resource address." This limitation was part of claim 52, which was indicated to be allowable, and thus, these claims should also be allowable.

Claim 83 is a method claim that substantially tracks the language of amended claim 52 and specifically includes the limitation of claim 52 that was indicated to be allowable. Thus, this claim and its dependent claims should also be allowable.

It is believed that the application, as amended, is now in condition for allowance. The Examiner is, therefore, respectfully requested to enter this Amendment and pass this case to issue.

Respectfully Submitted,

JONES DAY
